The damage to the building is considerable. At the time the church was struck the electric light wire in Rev. Morgan's bath room was cut into small bits, and the circuit broken. The lights in W. F. Sholly's house were also extinguished by the same bolt.

Oh, the farmer of the future! fancy sees him proudly stand, with much science in his cranium, and cunning in his hand; sees him snare the distant rain-cloud as the sportsman snares the pike; sees him raise a kind of turnip all the world will have to like; sees him profit by rotation in the planting of his crops; sees him closely scan the market, all the way from wheat to hops; sees him greet the artful demagogue that's seeking place and pelf, with the words, "I plow the land, sir, and I'll run it some myself!"—Glenwood Phonograph.
